Company overview

Ultimatron france is a french company specializing in lithium battery storage solutions, mainly based on lifepo4 (lithium iron phosphate) technology. The company focuses on providing high-performance energy storage systems for mobile and stationary applications such as camper vans, boats, solar energy systems, and off-grid installations. It is positioned as a provider of innovative and safe energy storage solutions, combining batteries with smart management systems and monitoring tools.

Legal information

Legal name: ultimatron france

Legal form: sas (société par actions simplifiée)

Siren: 880 734 504

Vat number: fr57880734504

Date of creation: december 2019

Head office: 286 rue charles gide, 34670 baillargues, france

Business activity

Ultimatron france operates in the field of:

Lithium battery manufacturing and distribution

Energy storage systems (ess)

Renewable energy equipment integration (solar, off-grid systems)

Portable power stations and inverters

We are strongly focused on lifepo4 battery systems, known for long life cycles and safety.

Products & solutions

Ultimatron france develops and supplies:

Lifepo4 lithium batteries (12v / 24v / higher capacity systems)

Smart batteries with bluetooth monitoring

Battery management systems (bms) integrated

Portable power stations ("powercube")

Inverters and energy storage accessories

Key features

High cycle life (thousands of charge cycles)

Smart bms protection (overcharge, over-discharge protection)

App-based monitoring (bluetooth connectivity)

Safety-focused lifepo4 chemistry

Market position

Operates mainly in france and european markets

Targets mainly b2b distributors (camping, marine, solar sectors)

Positioned in the premium lithium battery segment

Strengths

Specialization in lifepo4 technology

Strong focus on safety and battery management systems

Products designed for off-grid and mobile energy use

5-year warranty on selected batteries

Integration of smart monitoring (bluetooth/app control)

Company mission

Ultimatron france positions itself as a provider of:

"reliable, safe and innovative lithium energy storage solutions for modern mobility and renewable energy needs."
